Data Presentation

Overview

- you have an own collection already? LOGIN first
- or select one of the Featured Data Selections
- or create own data selections and visit the Data Library

Import Data

It's that simple to load external data as an AT\$-Selection to make it available for your presentations in AT\$new.
Follow the instructions shown there..

Data Library

Sources

Select a source at the left hand side
- by Region
- by Categories
and follow the respective official thesaurus to database level where you make your selection.

Alternatively: make use of POPULAR QUERIES/
Frequently Requested themes listed there
or create your own query by KEYWORD SEARCH
at the top.

My Selections: your private data collection

Best Countries: popular country rankings
with one click
